NEGRO SHOOTS SIX

Death Dealing Man Hunt and Lynching in Georgia Yesterday.

POSSE TOOK THEIR REVENGE

Negro Kills Planter, Fatally Wounds Sheriff, and Injured Four of Posse. Two Blacks Are Lynched and Bodies Burned.

(By Wire to the Morning Star.)

Soperton, Ga., Aug. 27.—Two negroes lynched and a posse in pursuit of the wife of one of the victims, the killing of prominent planter, a member of the posse; the probably fatal injury of the sheriff of Montgomery county, and the wounding of four other members of the posse, summarizes the result of one of the most exciting man hunts this section has ever known.

Ben Clarke, an escaped convict from the Bibb county chain gang, was shot to death after a fierce battle early today, and his body burned. The negro threatened to kill Nicholas Adams, a merchant of Kibbe county, "and a hundred others."

John Sweeney, who harbored the ex-convict, was taken from a passenger train a mile from Tarrytown tonight and lynched.

The posse then set out in search of Sweeney's wife who, it is said, was in the neighborhood.

Intense excitement prevails through this section.

James Durde, a prominent planter and member of the posse which captured Clark, was shot and killed instantly. The other members of the posse who were shot by Clark were Sheriff James Lester, Walter Simmons and three others unknown. The officer received an ugly wound in the breast

The posse found Clark in Sweeney's house. Sweeney's wife was at home, but Sweeney was absent. The sheriff called on Clark to surrender. For answer he received a 44-callibre bullet fired from a rapid fire gun. Durde was shot and other members of the posse fell before the torrent of lead dealt out by the negro. He continued to fire until his ammunition was exhausted. He was then overpowered and his body riddled with bullets. He wore a steel breast plate that turned Winchester bullets. A pile of logs was covered with crude turpentine and the body cremated. In the excitement the woman escaped. The events of the day fired the intense spirits of the posse, and it is said she cannot evade the search that is being conducted tonight.

Sweeney was caught near here late this afternoon. He was carried aboard a northbound train to a secluded wood near Tarrytown where his body was riddle with bullets after being swung up to a sapling.

BLAME PLACED ON OWNERS.

Are Responsible for Deaths in Speed Carnival at Indianapolis.

(By Wire to the Morning Star.)

Indianapolis, Aug. 27.—The owners of the new Indianapolis Motor Speedway are held responsible for the several deaths that occurred in accidents during the automobile races of August 19, 20 and 21, in the coroner's decision made public tonight. He reports the matter for grand jury investigation.

OUTLINES.

As the result of an exciting man hunt in Montgomery county, Ga., last night, two negroes were lynched, a prominent planter, a member of the posse, was killed, and four other members of the posse were injured. The trouble was caused by Clarke threatening the life of a prominent merchant of Bibb county——Bradstreet's reports continued improvement in trade and industrial enterprises——During the week just ended the trend of the price of cotton has been upward. Bullish reports are expected from the government and Ginners' Association, the latter making the condition as low as 64, with unfavorable crop news from Texas, Georgia and Alabama——At Waverly, Ia., yesterday an explosion in a canning factory, followed by fire, caused a panic in which one man was killed and three others injured——Five of the census supervisors named by President Taft for Virginia are Democrats——State Insurance Commissioner J. R. Young was elected a member of the executive committee at Colorado Springs yesterday——Count Zeppelin, in his dirigible balloon, is expected to arrive at Berlin today after covering 450 miles, and will be greeted with much enthusiasm by the German people.——At Key West, Fla., yesterday ten men were killed by the explosion of 700 pounds of dynamite——New York markets: Money on call firm 2 to 2 1-2 per cent., ruling rate 2 1-2, closing bid and offered at 2 1-4. Spot cotton quiet, 12.85. Flour about steady with a quiet trade. Wheat irregular, No. 2 red 1.06 1-4 elevator, 1.10 3-8 f.o.b. afloat. Corn regular, No. 2 77 1-2 asked elevator, 78 asked delivered and 63 1-4 f.o.b. afloat Winter delivery. Oats steady, mixed 40 nominal. Turpentine firm 59 1-2. Rosin steady.

FARMERS ADJOURN

Successful Convention Comes to a Close—Immigration Question—Order in Sanford Case—The Mattamuskeet Drainage.

(Special Star Correspondence.)

Raleigh, N. C., Aug. 27.—The North Carolina Farmers' Convention closed its annual session today after spending four days in close study of the latest and most approved methods of farming in connection with the splendid farming equipment of the A. & M. College and instruction by college experts and especially equipped men from the State Department of Agriculture and distinguished agriculturalists from Washington and elsewhere.

The convention has elected Hon. John W. Blount, of Roper, president to succeed A. L. French. Other officers were reelected. The convention adopted a series of resolutions calling on agriculturalists, generally, to use the most improved machinery, conserve the soil, the raising of more live stock on the farms and interest in road building. A paragraph of the resolutions declares "We also join other farmers' organizations in protesting against indiscriminate immigration from Southern Europe. We welcome most heartily men of our own stock, especially wideawake western and northern farmers, men who speak our language and know our institutions, many of whom have made themselves leaders in Southern development, but we do not believe in wholesale immigration of Italians, Poles, Russians, etc."

The members of the convention took part in the early morning today in a demonstration of tests of tuberculosis in cows given by Drs. Hartman and Chrisman. Among the addresses at the final session were: Commercial Fruit Growing, by State Horticulturist W. N. Hutt; Handling and Selling Tobacco, by J. O. W. Gravely; Improvement of State Horticulture, by S. B. Shaw, State Department of Agriculture.

The Corporation Commission made an order today in the Sanford Union passenger station matter to the effect that the Seaboard Air Line contemplates changes in its grade and tracks entering Sanford so that the Seaboard would cross under the Southern tracks and this would necessitate a different location for a union station. Therefore, the Commission reapproves the plans submitted for the improvement of the present station. The order leaves to be fought out by the railroads and the town authorities the question of whether the changes in the old building can be made with wood material when the station is in the "fire limit."

Adjutant General Armfield received today from Capt. T. C. Daniels, commanding the Naval Militia, official report of the safe arrival of the Alfrida and crew from Brooklyn navy yard, where the boat was received for use by the North Carolina brigade.

Official announcement came today through the State Superintendent of Public Instruction that the State Board of Education has entered into an agreement with the people of the Mattemuskeet Lake section, in Hyde county, that the State Board will drain the lake within a reasonable time or if it should sell ,to require the purchaser to obligate to drain, dainage to be accomplished through the formation of a drainage district under the terms of the drainage act of the recent Legislature.

RIOT IS HOURLY EXPECTED

State Troopers Throng at Steel Works at Schoenville—Imported Workmen Leave Through Fear. Another Sensation.

(By Wire to the Morning Star.)

Pittsburg, Aug. 27.—At sundown tonight 60 State troopers mounted guard at the plant of the Pressed Steel Car Company in Schoenville where 3,500 employes of that concern are striking, anticipating before another 24 hours a repetition of the "bloody corner" riots of last Sunday night.

Troubel is feared for several reasons the princfpal one being the fact that all during the day imported workmen have been deserting the Pressed Steel Car plant in droves of from two to 200. The men declare unequivocally that they have been misused, subjected to indignities and forced to work whether they chose or not.

Trouble is feared for several rea-McKees' Rocks and the strike zone. The strikers declare that before morning the Pressed Steel Car Company will be forced to suspend operations. But 300 workmen were left in the plant tonight at sundown so the deserting workmen declare.

The grounds surrounding the river gate the Pressed Steel Car Company presented a picturesque sight tonight. Encamped there were over 300 workmen who left the car works during the day and who say they will stay near the car plant offices until they get at least a portion of the wages due them. The encamped workmen declare they will stay on watch at the car company gates until they are forced to retire by force.

Stories told by the workmen who

(Continued on Page Eight.)

COTTON PROSPECTS

Condition of Crop Has Declined Since August 1st.

DRIFT OF PRICES UPWARD

Rumors of Forthcoming Bullish Reports by Ginners' Association and Government—Unfavorable Reports.

(By Wire to the Morning Star.)

Nw York, Aug. 27.—For on cause or another the drift of cotton prices most of the time has been upward. Many of the crop reports have been unfavorable. Texas has sent complaints of dry heat weather. Some crop guesses from that State are very much smaller than they were recently. Excessive heat is supposed to have caused much shedding. In Georgia and Alabama shedding is said to be general, owing to hot, dry weather, and there, as in many other sections, and plant is said to be one to three weeks late. A rumor that the National Ginners' report would put the general condition at only 64 per cent. has had some effect. It was in line with a very general expectation that the next Government report now so near at hand would be bullish. That it will show some decline from the August condition of 71.9 per cent. is taken for granted. Last year the September condition was 71.6 per cent. on a crop of say 13,500,000 bales. In 1907 it was 72.7 with a yield of 11,375,000 bales. In 1906, with a yield of 11,375,000 bales. In 196, a September condition of 77.3 per cent. meant 13,711,000 bales; in 1905 one of 72.1 per cent. resulted in 11,346,000. In 1899 and 1900 it was 63.2 to 68.5 and it foretold a crop failure in each case; that is 9,436,000 to 10,383,000 bales, and 1902 it was down to 64 per cent., with a yield 10.728,000 bales on an area of 24,275,000 to 27,114,000 acres for these three years as against a present area of something in excess of 32,000,000 acres. The average September condition for ten years is 73.6 per cent., and this year it may fall well below 70. The question is whether such a condition has been or has not been discounted in the present price. Opinions on this vital point are, as may be imagined, diametrically opposed.

Trade continues to improve. Reports from Manchester and the continent are in some cases very cheerful. Calcutta business is said to be better. Russia's purchase of yarns, according to some advices, are larger. Spinners in this country are also said to be buying somewhat more freely. Large spot interests have been buying. So have Wall Street, Chicago and Southern houses. The New York stock still steadily decreases. It is only a question of time when it will have to be replenished if New oYrk is to have any sort of basis for its trading in "futures." The weekly statistics as to spinners' takings and shrinkage in world's stocks are bullish. Receipts at the ports and interior towns look small enough by comparison with last year's. The visible supply of all kinds of cotton in the world is approximately 380,000 bales, smaller than at this time in 1907, the year, it would seem, with which comparisons should now be made for in that year the crop was 11,375,000 bales, following one of 13,511,000 against which many people believe that a yield of somewhat similar size is all that can be expected this year. However this may be, it has recently been found impossible to depress the price to the 12-cent level, to say nothing of 11 1-2 cents, which some of the bears predicted for the past week, with 11 cents or less as the ultimate objective points.

On the other hand, speculation has lagged. A creeping advance has been due more to professional covering and manipulation than anything else. It is still insisted by some that Texas' crop will be so large as to surprise the pessimits. The rains and cooler weather have improved the prospects in that State. Spinners are still in the main pursuing a cautious policy. Some reports are that improvement in European trade is exaggerated, that in reality it is still far from satisfactory. Rumors of increased trade with China have not been fully confirmed. In this country conservatism is still the dominant note, despite some admitted increase in general trade, especially in iron and steel. Many cotton mills at home and abroad are believed to be carrying good supplies of the raw material. The visible supply is comparatively large and the weight of even a small crop is usually seen in a decline of prices at the opening of a new season.

Meantime the generality of people are awaiting the Government report of September 2 as something which may give the cue as to the course of prices in the near future. As the week drew to a close the upward tendency became more pronounced while there was a material increase in the volum of business. Prices were forced to an advance of some 30 odd points for the week under active short covering and heavy buying for Memphis account. In addition to more bad crop news from the Southwest, pessimistic advices were also received from the South Atlantic States. Temperatures advanced again in Texas, Oklahoma and arkansas and the rainfall again became insignificant. The National Ginners' report finally appeared, giving a condition of 64.4. Latest estimates on the Government report put it at 67 per cent. Prominent spot houses continued their buying.

FATAL FOR TEN MEN

Workmen on East Coast Railway Killed in Fearful Explosion.

BODIES BLOWN HIGH IN AIR

Lighted Cigarette in Box of Fuses Caused the Explosion—Five Workmen Seriously Injured. A Heavy Charge.

(By Wire to The Morning Star.)

Key West, Fla., Aug. 27.—As a result of the explosion at noon today of 700 pounds of dynamite at Bochachica, 12 miles from Key West, on the Florida East Coast Railway, 10 men are dead, five others seriously wounded. The explosion was caused by a member of the railroad construction force carelessly throwing a lighted cigarette into a box of fuses.

Nine of the workmen met instant death and the tenth died while being brought to a hospital here. The men were hurled into the air and the bodies of the dead were almost beyond recognition, arms and legs being torn from the bodies of some while the faces of others were mere masses of flesh.

When the explosion occurred the workmen were standing in water four feet deep and directly beneath them was the 700 pounds of dynamite, ready for the blast when the men should stop work for dinner.

According to one of the injured, a workman—one of the nine to meet instant death—threw a lighted cigarette to one side, not noticing that it fell into the box containing the fuses which were connected with the heavy charges of explosives beneath. A few seconds and the men, water, mud and tons of dirt were thrown 70 to 90 feet in the air.

Tugs at once brought the dead and the more seriously wounded to this city, the latter being placed in the Louise Mahoney hospital.

Those less seriously injured were placed on Stock Island, opposite Rocachica, and will be brought to Key West later.

Two More Victims.

Two of those who were more fatally injured died at the hospital late tonight, making the number of dead 12. Most of the victims of the explosion arrived here from New York Sunday.

DEMOCRATIC SUPERVISORS.

Five Appointed by Taft in Virginia—Republicans Get Half.

(By Wire to the Morning Star.)

Washington, Aug. 27.—Five of the ten census supervisors for Virginia will be Democrats.

The names of nine of the supervisors were announced today, as follows: W. W. Woodkard, first district; R. P. Bunting, second; C. Ridgeway Moore, third; William A. Land, fourth; S. Floyd Landreth, fifth; Edward C. Burke, sixth; E. D. Ott, seventh; John C. Smith, ninth; Warden L. Hyde, tenth.

The appointment for the eighth district has not been made, but it has been decided that he shall be a Democrat.

Of the nine designated Messrs. Wodward, Land, Burks and Hyde are Democrats, and the other five Republicans. It is estimated that about 1,500 enumerators will be necessary to make the count in Virginia as against 1,110 in 1900.

DEATH IN A PANIC.

Explosion in Large Factory Was Followed By Fire—Number Injured.

(By Wire to the Morning Star.)

Waverly, Ia., Aug. 27.—In a panic of 300 employes of the Kelly Canning factory to escape from the second floor of the canning department, where a gasoline tank had exploded and thrown fire over the room, Geo. McRoberts was killed, three persons were probably fatally injured, and a score of others were severely hurt. The building was destroyed by the fire that followed the explosion, causing $100,000 damage.

Most of the employes are women, young men and girls. All were excited by the shower of flames and with cries of fear, ran for the stairs and the windows. Many leaped to the ground in pell mell disorder, falling on each other.

THE TRIAL OF LONGFELLOW

Case Concluded Last Night and the Charge of His Honor Will be Given This Morning—The Evidence Yesterday.

(Special Star Telegram.)

Kinston, N. C., Aug. 27.—No case has attracted more attention in the courts of this county in recent years than that of State vs. J. S. Longfellow for bigamy, now in progress before Judge George W. Ward, presiding over the August term for Judge O. H. Allen, who was to have presided at the term, but is sick.

Judge Ward overruled motions of defense to quash on the grounds of lack of territorial jurisdiction of North Carolina courts to try, the alleged second marriage taking place in Norfolk and the trial was begun yesterday afternoon. Contrary to the expectation of the public neither the prosecuting witness nor the defendant was put upon the stand and the evidence was limited and completed before noon today. The State relied upon the statements of defendant to Mrs. Sallie Swift, mother of the prosecuting witness, Miss Bruce Swift, and to others to prove the alleged bigamous act, and in rebuttal the defendant offered only depositions of Miss Nettie B. Longfellow, his sister, and the Deputy Corporation Clerk of Norfolk.

Mrs. Sallie Swift testified that prior to the alleged marriage of her daughter to Longfellow that Longfellow visited her home in Kinston and asked her daughter Bruce's hand in marriage. This was finally given and on May 4th Longfellow and Miss Bruce Swift arrived at her home from Baltimore and were received as husband and wife. Spending several days as guests of Mrs. Sallie Swift and occupying the same room as such. They later went to Seven Springs for a short stay and were registered at the hotel there as man and wife. Other witnesses testified of Longfellow's representations to them concerning his relationship to Miss Swift of his intended marriage to her. Letters of Longfellow's to Miss Swift were also introduced by the State. Upon the State's resting on this evidence the defense again moved to quash the bill, but was overruled and then offered the deposition of Miss Nettie B. Longfellow. The deponent said she was ill in a hospital in Baltimore when on May 2nd J. S. Longfellow and a young lady paid her a visit. The young lady was introduced as Miss Bruce Swift, of Kinston. During the visit the three talked of Mrs. J. S. Longfellow, of Wilmington, N. C., and of the progress of Longfellow's suit for divorce from her. Defense also introduced a deposition of the Corporation Clerk of Norfolk to the effect that there was no record of such a marriage on the books. This concluded the evidence and argument was begun this afternoon.

Ex-Governor Aycock opened for the State in an impassioned appeal and was followed by Hon. H. E. Shaw, of the local bar for the defense. Hon. John E. Woodward, of Wilson, and G. V. Cowper, Esq., of the local bar for the State followed in the order named. Ex-Solicitor L. I. Moore, for the defense, and Solicitor Rodolph Duffy, for the State, will close the argument tonight. There is no probability of a verdict before tomorrow as Judge Ward will hardly deliver his charge until tomorrow morning.

FARMAN WINS IN BI-PLANE

English Aviator Broke World's Record in Endurance Flight and Captured Prix de LaChampagne—Victory Great Surprise.

(By Wire to the Morning Star.)

Bethany Aviation Field, Rheims, Aug. 27.—Henry Farman, the English aviator, a hitherto unknown quantity in the aviation contests in a biplane of his own design broke the world's records for duration flight and distance in a heavier than air machine today and won the grad Prix de La-Champagne—the endurance test—by a remarkable flight officially recorded as 180 kilometres (111.78 miles) in 3 hours 4 minutes 56 2-5 seconds.

He actually covered an extra ten kilometres and remained in the air ten minutes after 7:30 o'clock this afternoon, the hour that the timekeepers, under the rules, ceased to keep a record of the flight.

The other contestants finished in order named: Hubert Latham, in monoplane No. 29, 154 kilometres; 500 metres (95.94 miles), time 2 hours 18 minutes 9 3-5 seconds.

Louis Paulham, in a voisin biplane 131 kilometres; Count de Lambert, biplane, 116 kilometres; Hubert Latham, in monoplane No. 13, 111 kilometres; M. Tissandier, biplane, 111 kilometres; Rogers Sommer, biplane, 60 kilometres; M. Delagrange, monoplane, 50 kilometres; M. Bleriot, monoplane, 40 kilometres; Glenn N. Curtiss, biplane, 30 kilometres; M. Lefvbre, biplane, 21 kilometres.

Although Hubert Latham, with a different machine took second and fifth positions, the aviation committee held that he was ineligible for two prizes and awarded the fifth to M. Tis-

ANOTHER TO RALEIGH

Failure to Connect With Lad Pope Responsible For Second.

WILSON CONTINUES TO LOSE

Railroaders Took Game Yesterday by Overwhelming Score—Fayetteville Keeps Up Winning Stride—Fight to Finish.

Results Yesterday.

Wilmington 0, Raleigh 2.
Wilson 0, Rocky Mount 12.
Fayetteville 4, Goldsboro 2.
Fayetteville 4, Goldsboro 1.

Where They Play Today.

Goldsboro at Fayetteville.
Wilson at Rocky Mount.
Raleigh at Wilmington.

*Standing of the Clubs.

	W.	L.	Pct.
Wilson	50	40	.556
Wilmington	49	41	.544
Fayetteville	47	41	.534
Raleigh	48	43	.527
Goldsboro	43	44	.494
Rocky Mount	28	59	.322

*Corrected officially by R. T. Gowan, Secretary East Carolina League.

Unless the Wilson team should suddenly drop dead in a body and the Raleigh team should suddenly by some magic touch be transformed into a company of pigmies before the games today, all of which is highly impossible, it would seem that Wilmington has about as much chance for the pennant as the proverbial snowball in regions infernal.

The second game of the last series of the Eastern Carolina League season went to Raleigh yesterday afternoon at League Park by the score of two to nothing, inability of the locals to connect effectively with Pope, on the mound for the visitors, being largely responsible for the tragic conclusion. Levy was sent in to pitch for the locals at first, but he has not yet recovered from the injury to his knee and had to be relieved in the fourth by Sexton, who pitched a magnificent game, but couldn't win against the fearful odds. Raleigh started the scoring in the very first inning when Hart was given life on four wide ones, was sacrificed by Crozier and scored on Hoover's single to left and slow fielding by Lohr, who was sent into that territory in place of Jayes, who was put on the bench until Lohr was later injured in running out a bunt to first and had to retire. With one run and none down, Haas flew to Guerrant and Hoover was out attempting second with Irwin at bat, For Wilmington Nichols whiffed, Guerrant flew to short and Smith popped out to first.

In the second spasm, Irwin flew to Brodie, Thumb drew a pass; Brumfield flew to Nichols at short, Sharp being out of the game on account of a sprained ankle, while Rowe was out second to first. For Wilmington Ross flew to short, Brodie to right, Levy second to first.

After Pope fanned in the third, Hart singled to right and Crozier to left, but Hoover forced Crozier at second and was himself caught trying to pilfer that station. For Wilmington Brennan was hit by pitched ball and after some argument was sent to first, but Kite and Lohr fanned and after Brennan had stolen second Nichols hit to short and was called out on a very close decision at first.

Sexton went in the box in the fourth and Haas, Irwin and Thumb, the first three men to face him, as did also Brumfeld, the next man in the fourth, fanned. Wilmington's fourth was a foul out to third by Guerrant, fly of Smith to left, a hit by pitched ball to Ross and an out for Brodie, short to first.

Brumfeld's whiff and Rowe's out, Sexton to first, and Pope's fly to right constituted Raleigh's half of the fifth while for Wilmington Sexton was out short to first on difficult stop; Brennan was called out short to first on another close decision; Kite singled to left and Lohr was out at first unassisted.

The sixth came on with Hart out second to first, Crozier's fly to Guerry and Hoover's out second to first. Wilmington: Nichols flew to right, Guerrant fanned, Smith out third to first.

Haas was out second to first, Irwin fanned and Thumb flew to third in the seventh, while a near score developed in Wilmington's half when Ross was safe on Hart's muff, but was forced by Brodie at second; Sexton fanned, but Brennan was up and Brodie stole second, Brennan hitting to third and on error both runners safe, Kite, however, going out to first unassisted.

In the eighth Brumfeld flew to Lohr; Rowe was out Sexton to first on beautiful fielding, while Pope fanned. For Wilmington Lohr beat out a bunt and Jayes was sent in to run for him; Nichols sacrificed him, but Guerrant popped out to pitcher and Jayes was doubled at second.

Raleigh put another man around the corners in the ninth after Hart flew to Jayes in centre and Crozier had fouled out to Jayes on sensational running catch. Hoover was safe on

HARRIMAN AND THE SOUTH.

For some time the New York Stock Exchange has been a "one man market." It seems that all has hinged on the condition of the health of Mr. Edward H. Harriman, the great railroad magnate. Early in the Summer he left America for Europe for the benefit of his health, and since then the price of stocks tumbled or took a spurt according to the news that came over the cables as to his condition. He returned home on the 24th of August and the bears who possibly are pessimists by nature and especially by design, have made use of his more or less unsatisfactory condition in order to hammer stocks—especially of the Harriman group of railroads. They got in their worst work on Thursday when the Harriman stocks went off from 3 5-8 to 7 1-2 points, causing many fortunes to dwindle, the aggregate amounting to millions of dollars.

The impression that Mr. Harriman's health may make it necessary for him to retire from the active management of his great trans-continental railroads and their allied lines, or that he may die, has created something like a panic in the stock market. Many, however, representing the bulls and the optimists, are confident that even if the worst comes, there will be a man of the hour, a successor who will take up Mr. Harriman's great work and carry it forward with equal success. Of course, there is an element of doubt whether such a successor can be had in the emergency, and that is what makes the market nervous.

No doubt, however, Mr. Harriman is surrounded by able men who know and will carry out his policies, and it is significant that he has picked out a Southern man, Judge Lovett, of Texas, to take the head of his immense affairs in the event of his death. It must be admitted that the eminent railroad man's death would be a great blow to this country. He has been a tremendous force in railroad development in America and his lines now link the Atlantic and Pacific oceans. He has banded the continent with steel, and having pushed his lines from the Pacific to the Atlantic in the North he had of late turned his attention to the South. By his recent acquirement of the Central of Georgia Railroad he has tapped the Southern seaboard at Savannah and what other achievements he had scheduled in the South are not known, but it is believed that his death would be a most serious blow to Southern interests at this time. His great organizing and administrative ability had conquered the field so far as the North was concerned and he had just turned his attention to the South. In the inception of a movement which no doubt meant a great development in the South it can readily be seen that his elimination from activity at this time would constitute a loss of serious consequence to the South.

It appears strange that any one man should constitute such a powerful factor in a big and great country like this, but it is the man's gigantic achievements that have created the tremendous impress which he has made upon the Nation and the civilized globe.

The value of such a man to the United States cannot be overestimated and for that reason the passing of Edward H. Harriman would be a source of profound regret, to be especially felt in the South upon the eve of plans involving railroad development in this territory.

BRIDGE NORTHEAST RIVER.

It takes an awfully long time to get ready to build that projected steel bridge over the Northeast river between New Hanover and Pender counties. It was decided long ago that it was a necessity, and the boards of commissioners of both counties agreed to build it and bear the expense proportionately, but it seems that the project was finally hung up.

The Pender Chronicle is getting impatient about the bridge, and in its issue of this week that esteemed contemporary says:

"Our attention has been called several times recently by men who hold the interests of Pender county at heart, to the urgent need of a steel bridge over Northeast river at some point below Rocky Point. That such is needed is unquestioned, and it seems that the only reason why we haven't such a bridge is because of the fact that the Commmissioners of Pender and New Hanover could not agree upon the location. Now I do not know anything about the best location and am not in a position to judge, but when I get out among farmers and hear them speak of the hardships they have to undergo on account of having no bridge I am convinced beyond question that a bridge should be constructed in this locality. The New Hanover and Pender county Commissioners should each appoint a man and these in turn appoint a third member who should secure an expert engineer and build the bridge in the best location. Why let this question drop when it means so much to the farmer? If you would equalize the burden of taxation and give the country people something for their money then see that this bridge is built."

If Pender county is getting impatient about the proposed bridge surely Wilmington ought to feel its urgent need. It was agreed that it would be of material and decided advantage to Wilmington to make it easier and cheaper for Pender county producers to do their marketing here. There is no telling how much benefit the bridge would be to both counties and an enterprise of so much importance should not be allowed to sleep.

DON'T GIVE US AWAY.

This we get from the Eastern Carolina News, of Kenansville:

"The News expected nothing else but that the Star would do the right thing and make the correction for the error of a few days ago when it got us wrong on the map. That paper is now and has always been a perfect "gentleman." How could it be otherwise with such men at the helm as have guided it for nearly half a century."

The Star acknowledged the corn and did set its esteemed Kenansville contemporary straight, but it has gone and got us in a hole by that "half a century" allusion. Why it has been only a short while ago since the Montgomery (Ala.) Advertiser classed us along with the Norfolk Landmark as "a set of kids." It will never do for it to get out that a fellow has been on the turf for a half century. The Star's "kids" naturally are up in arms at being classed among the ancients.

JUST SO HE LANDS.

This we take from the Savannah Morning News:

"District Attorney Jerome, of New York, is a candidate to succeed himself. He says he will run as an independent, but will accept an endorsement from Tammany or any other organization that may be pleased to give him support. Mr. Jerome has been in the office eight years."

To the politician it does not make much difference how he gets there just so he lands. To get elected these days is everything, even if it is on the basis of notoriety, principle, or the abandonment of principle. However, we were laboring under the impression that Jerome wanted to go up higher.

The Philadelphia Record inquires: "When will the bunco business cease to boom in these United States of America?" Well, every time a National election occurs we think the jig is up with it, but the returns always show that the Republicans have once more worked the game for all it is worth. It's strange how they can bunco so regularly and so successfully.

The Atlanta Journal has been insulted because the New York Sun, laboring under grotesque metropolitan misconception of the Southern method of frying chicken, has attempted to get funny at the South's expense. The unsophisticated Sun writer should come to North Carolina and eat fried chicken that will make his hair curl till his head looks like a cimlin decorated with cork screws.

The Newbern Sun recently demanded a public park and to prove the necessity for such a resort, the editor declared that to his own personal knowledge eight couples did their love making in the cemetery. The cemetery surely is a queer place to court, but, of course, if the couples discussed matrimony they surely were up against a grave subject.

Hon. James Wilson, Secretary of Agriculture at Washington, figures out that the farmers produce the wealth of this country. They know that, but what the farmers want to konw is how to keep others from getting about all the wealth after they produce it.

A Chicago man declares that he married a woman without loving her. If she's a Chicago woman she won't care just so he turns over his pay envelope every pay day that comes.

Some men are opposed to a third term for the man who doesn't show any sign of giving them a chance at even the first term.

Greensboro has won the penant in the Carolina baseball league. Charlotte can talk big but Greensboro can feel big.

According to a decision of the Supreme Court of New oYrk, Jack Binns is already one of the has-beens.

CURRENT COMMENT.

—And it would seem that Governor Kitchin cannot stand it any longer. He argued his side of the question the other day at Pittsboro, and Monday he performed at Winston. It might pay the Governor to put in full time, and hard licks good and plenty, during Senator Simmons' European tour.—Greensboro News (Rep.).

—When you strike some of the sand beds in Pender—for she has some bad ones—or when you get out on a crooked piece of road, famed for its roots and holes, and you think of the fact that Pender county has not one cent of bonded indebtedness, has never, as a county, spent one cent for good roads, a mild feeling of "cussedness" creeps over you. Try and manage to hold that unruly member, Mr. Traveler, better days may come some time.—Pender Chronicle.

—The Rev. Howard Lee Jones, pastor of the Citadel Square Baptist Church of Charleston, has ideas of his own and is not afraid to promulgate them. The following bit of philosophy is refreshing for its contrast with the prevalent clerical delusion that mankind can be legislated into religiousness: "A social shame is never cured by a legal sham no matter how solemn and unctuous the advocates may become over their proposal. If there was anything in their theory of cure, all disease would have long ago been eliminated by the labels on the bottles of patent medicine preparations."—Norfolk Virginian-Pilot.

—James B. Hammond, inventor of the typewriter that bears his name and presinent of the company that manufactures the machine, fell very ill some time back. Fearing he was about to die ,and desiring to reward certain of his employes who had been faithful to him, he set aside $1,000,000 of the stock of the company, to be distributed among them at the time of his death. The stock was placed in the hands of a trustee, who didn't wait for Mr. Hammond to die, but distributed it at once. Mr. Hammond didn't die, but got well. When he wanted to take charge of the business again he was informed by his beneficiaries that they owned the controlling interest in the concern, and felt fully competent to manage it thmeselves. Mr. Hammond has now gone to court to recover the stock, which he says was distributed aginst his instructions and to a lot of ingrates.—Savannah Morning News.

TWINKLINGS.

—Ted—Why are you so opposed to the small families of the rich. Ned—Our millionaires haven't enough daughters to go round.

—Young Golightly (to pretty girl)—Is the seat next to you engaged, miss. Miss—No, but I am. And he's going to get in at the next station.—Syracuse Post-Standard.

—Hyker—Have you heard the results of the baseball game today? Pyker—Yes. Hyker—Which won—the home team or the umpire?—Chicago News.

—Mrs. Newlywed—The only bar to my happiness, dearie, is the thought that some day I may be a widow! Newlywed—Don't worry, pet, that shall never happen while I live.—Harper's Weekly.

—"The caterpillar is the slowest thing on earth,' 'said the young man, poking at the tree trunk with is cane. "Oh, I don't know," said the young lady in the hammock, who hadn't as yet scored her first engagement for the summer.—Boston Globe.

"Patience will accomplish anything. You can even carry water in a sieve, if you wait long enough." "Is that so? Say, how long would I have to wait to do that?" "Till it gets cold enough for the water to freeze."—Clevelond Leader.

—"Arabella," said old Billyuns as he finished his dinner, "I am going to ask you to do me a favor. I want you to give your young man—Mr.—Mr.—Whatshisname—a message from me." Arabella blushed and looked down at her plate. "Tell him," the bluff old millionaire went on, "that I don't object to his staying here and running up my gas bills, but that I do object to his carrying the morning paper away with him when he leaves."—London Answers.

—Pender Chronicle: The army worm has been threatening to play havoc in Pender county for the past few days. At Watha they completely destroyed a 2 1-2 acre field of pea vines and hay for Mr. J. Thompson and were beginning on the adjoining crop of Mr. Peace when they were stopped by mowing down the forage. Here in Burgaw they began on the peo vine field of Mr. McLendon and would have destroyed his likewise had he not promptly mowed it down. The assistant Entomologist, Mr. Z. P. Metcalf, came down to Watha and stated that they came from the swamps during the recent floods. Paris green, he stated, would prove effective to keep them from spreading if used in sufficient quantities.

The Crime Of Idleness.

Idleness means trouble for any one. Its the same with a lazy liver. It causes constipation, headache, jaundice, sallow complexion, pimples and blotches, loss of appetite, nausea, but Dr. King's New Life Pills soon banish liver troubles and build up your health. 25c at R. R. Bellamy.

Take this Piano at a Big Saving

—and Put $113 into Other Things

We've actually revolutionized piano selling by the Ludden & Bates Piano Club, membership in which brings you a $400 instrument for $287, and in addition gives you a musical education absolutely free. This saving of $113 is a result of selling 100 pianos at a time instead of one, you getting the benefit of the consequent reduction in our expenses. There is no complex agreement to enter into; you pay on easy instalments and have the use of the piano from the start.

Do not associate this offer with ordinary sales of "cheap" instruments. The piano we offer does not suffer by comparison with any you may name—for the

Ludden & Bates NEW SCALE PIANO

is a full cabinet grand, with special steel and copper-wound strings, double-repeating action, balanced scale, light, even touch and genuine ivory keys. Rich, full, "singing" tone, possessed only by the best pianos. Beautiful cases of mahogany, walnut or oak. Each piano carries our lifetime guarantee.

Should the head of the family die before payments are completed, we cancel the club contract and make the member a present of the instrument without further obligation. Write us—NOW—for complete details. Address

LUDDEN & BATES, Southern Music House, Dept. CH, Wilmington, N. C.

DO YOU PATRONIZE HOME INDUSTRIES?

Those of you who have been making your purchases away from Wilmington should think before patronizing mail order and houses away from home any further.

Who sympathized with you when your little girl was sick? Was it the mail order house?

Who carried you last winter when you were out of a job and had no money? Was it the mail order house or was it your home merchant?

When you want to raise money for the church or for some needy person in town, do you write to the mail order house, or do you go to your home merchant?

How much does the mail order house give towards keeping up sidewalks or paying the minister's salary?

When you were sick how many nights did the mail order house sit up with you?

When you had to raise money to pay your gas bill, did you get it from the mail order house or a home merchant or contractor?

When your loved one was buried, was it your home merchant who dropped the tear of sympathy and uttered the cheering word, or was it the mail order house?

PATRONIZE HOME MERCHANTS

MANY SPECIAL FLAGS.

Uncle Sam Has Some Which Are Very Seldom Seen.

COLORS OF THE PRESIDENT.

Not Until 1882 Did the Chief Executive of the Nation Have a Personal Banner, but Now He Has Three, the Naval, Army and Peace Flags.

As the United States grew and the government expanded many new departments were added, and with them many special flags have come into existence. Least often seen and yet most interesting of these twenty-five or thirty special flags is that of the president of the United States. He has a wealth of them—in fact, no less than three—but they are seldom seen in public. There are two each of these flags, one of bunting and one of silk. They are exactly alike, with this exception, but the one of silk is called the "president's colors."

The president of the United States had no personal flag until 1882. If he went aboard a ship his presence was denoted by the national flag hoisted at the main truck, and his presence in a garrison or post was denoted by the raising of the big garrison flag. These were not entirely distinctive as denoting the presence of the president, for these flags were hoisted on gala occasions when the president was not around. The lack of a distinguishing flag for him was felt by the navy also, and the secretary of the navy by general orders, Aug. 19, 1882, established a flag for the president of the United States. The general orders described the flag as of blue bunting with the coat of arms of the United States in the center. The flag was to be hoisted at the main of the vessel when the president was aboard and be carried at the bow of the launch on which he came aboard.

In the army there was no distinguishing flag for the president of the United States until just before the outbreak of the Spanish-American war. Colonel Theodore Bingham, who was then superintendent of public buildings and grounds, called the attention of President McKinley to this lack of a distinguishing flag for him and stated that he thought the commander in chief of the United States army and navy ought to have a distinguishing flag. President McKinley did not like the suggestion, but the secretary of war did, and a flag was made. It was designed by Frederick D. Owen and is a beautiful thing to look at. The official description of the flag is as follows:

"The president's flag is of scarlet bunting, thirteen feet fly and eight feet hoist. In each corner is a five pointed star of five inch radius to the tips. In the center of the scarlet field is a large fifth star, also of five points, two feet nine inches in radius to the tips. Inside of this star is a parallel star, separated from it by a band of white three inches wide. The inner star forms the blue field upon which is the coat of arms of the United States. On the scarlet field around the large star are forty-six small white stars, one for each state, equally scattered in the reentering angles and all included within the circumference of an imaginary circle three feet and a quarter in radius. In the upper point over the angle is a constellation of thirteen stars, representing the original thirteen states of the American confederation."

Mr. Owen explained that in the olive leaves, its berries and the arrows is symbolized the original thirteen. It is also not a little singular that the official seal should bear in its motto exactly thirteen letters and that the general order which created the flag was also numbered thirteen. The magnificent silken colors of the president's flag are of scarlet, and the design is embroidered upon this so exquisitely that it is impossible to tell right from wrong side when looking at the flag. The colors on the flag are what is called "proper"—that is, natural—the eagle being brown and the olive branches green, with red berries. This flag is to be displayed only in time of war.

Yet another flag has the president. In 1902 the "peace" flag was adopted. This third flag differs in a good many respects from the other two. In the first place, the great seal of the United States is correctly depicted. On the other flags the design of the seal is seven red stripes and six white ones, which is correct, as the flag design was adopted by the Third congress, but when the great seal was adopted the designer, not knowing much about the flag, as the forefathers intended, and six red stripes. And that is the seal today. There was a long discussion whether the seal should not be changed to agree with the stripes on the flag, as the forefathers intended, but it was decided that as it had been adopted it should remain. This "peace" flag thus has the seal correctly depicted. The eagle is snow white, its feathers being outlined in deep black. There is a different arrangement of the stars and of the sunburst also. The sunburst is exactly circular in form, with the rays radiating from the group of stars. The colors are of silk with exactly the same design.—Washington Star.

The Remedy.

"Doctor, I'm troubled with a terrible buzzing in my ears."

"Get a divorce."—Boston Transcript.

The secret of success in life is for a man to be ready for his opportunity when it comes.—Disraeli.

GRAND OPENING!

Big Newbern Excursion. Of Course You Are Going. Else You Will be Mighty Sorry.

Have you made up your mind to take in that delightful trip to Newbern on Labor Day, September 6th, via the fast and famous Atlantic Coast Line. If so, remember that the train will leave the Union Station at 7:30 A. M. and in view of the fact that there will be a tremendous crowd it will be necessary to be on hand early. Don't wait until the train is ready to start, but get there in time for a seat. There will be no crowding as the management will allow only a certain number on board and all who are successful in getting on will have the pleasure of enjoying a comfortable ride, which will not be characterized by jostling and crowding. The fare for this great trip is only $1.50. Get there early and side-step the rush and you will have the pleasure of enjoying one of the finest excursions ever run out of Wilmington. Train will leave Newbern on the return trip at 10:00 o'clock at night. There will be separate cars for white and colored passengers.

SEASHORE HOTEL CLOSED

A Splendid Season for This Popular Hostelry—Tarrymoore Has Many Guests and Remains Open Until Later.

After having had one of the best seasons in the history of the popular hostelry, the Seashore Hotel, Wrightsville Beach, closed yesterday morning and the few remaining guests secured accommodations elsewhere with the exception of seven or eight who will continue to have rooms there for several days yet, taking their meals at a nearby cottage.

It has been customary for years with the Seashore to close along about the last of August and usually there are a number of guests up to the last day but not enough to justify the management to hold open. Mr. Edgar L. Hinton, the proprietor, has had his commodious hotel well filled with guests throughout the season and in caring for them he added to his popularity as a hotel manager. There were times during the season when the accommodations of the hotel were taxed and overrun, many of the visitors having to seek quarters elsewhere, while at no time since the opening has there been a scarcity of guests. That they all went away eminently satisfied goes without saying.

The Tarrymoore has a large number of guests and Mr. W. J. Moore, the deservedly popular proprietor, stated yesterday afternoon that he did not expect to close before the 15th of September and would not close then if he had at that time the present number of guests. He is expecting to have a large Saturday and Sunday registration, many of whom will remain over for several days. None of the cottages have closed and each has a large number of guests, besides the Summer residents are still on the beach.

The season now fast coming to an end is regarded by the hotel men at the beach as one of the best, if not the very best, in the history of the ever increasing popular Summer resort.

LOCAL DOTS.

—The sanitary department moved yesterday to the Board of Audit and Finance office, where it will be until the alterations in the building have been completed.

—One deed was filed for record yesterday as follows: Thomas R. Cole and wife to Isaac R. Henderson, Jr., for $1,500, lot on Fifth, 195 feet south of Castle street, 31 1-2x90 feet in size.

—Hartsfield Crandall, a young white man, who has just finished a term of 30 days on the county roads for assault on Lee Justice and aaginst whom there is still pending a case for alleged violation of the prohibition law, gave bond yesterday and was released.

—The Recorder had only one case for trial yesterday morning, the lone deefndant being David Davis, a colored boy, arrested Thursday night for smoking a cigarette in the balcony of the Academy of Music. The youngster was reprimanded and the action dismissed.

—A case against Manuel Lane, a colored man, charged with abandonment and non-support of his wife, was called in Justice Harriss' court yesterday morning, but was continued until Monday, Sept. 6th. The deefndant was recognized for his appearance at trial. George L. Peschau, Esq., appears for the prosecution and L. Clayton Grant, Esq., for the defendant.

EXPERT PASSES ON RECEIPTS.

Contractor Bradshaw Given Judgment Against Mattie Allen.

After having an expert to pass upon the receipts to determine whether or not they had been raised, as contended by the plaintiff, and receiving an answer in the affirmative, Justice Harriss yesterday morning rendered his decision in the civil action entitled W. T. Bradshaw against Mattie Allen in which the plaintiff was suing for $104.69 balance alleged to be due on contract for construction of a house for the defendant. The justice decided that the plaintiff was entitled to recover $79.69. According to the contention of the plaintiff, borne out by the examination of the expert, two receipts had been altered, one raised from $50 to $150, and the other from $100 to $150. It is said that Mattie Allen cannot read or write and two of her friends attended to the payments on the building contract, hence it is hardly probable that a criminal action will be instituted. Through her counsel, Walter P. Gafford, Esq., the defendant gave notice of an appeal to the Superior court. The plaintiff is represented by Hon. John D. Bellamy.

Hall Not Yet Located.

Despite the diligent efforts of the officers Wm. R. Hall, badly wanted by the Government as a witness in the case against Mr. W. J. Moore, has not yet been located. It is believed that he has left the city as no trace whatever has been found of him in Wilmington. United States Commissioner George Harriss has entered a fine of $50 against him and has issued a capias for his arrest. The officers hope to locate him within a few days, wherever he is.

Two Cargoes of Lumber.

Two more schooners cleared yesterday for New York with cargoes of lumber and several others are in port loading. The schooners Mary A. Hall, Capt. Haskell, received 350,500 feet from the Chadbourn Sash Door & Lumber Company, and the schooner Geo. H. Ames, Capt. Gray, 400,000 feet from the Woodson & Gray Lumber Company. This is the second cargo of lumber shipped from this port by the latter company, which operates a large saw mill on Northeast river.

Horsford's Acid Phosphate

A teaspoonful added to a glass of cold water, with sugar, makes a refreshing drink.

WILL BUILD NEW SYSTEM

Acting Upon Report of Engineers City Declines Purchase of Old Sewerage System—New One Will be Constructed.

Acting favorably upon the recommendations contained in the report of the engineers, the city declines to purchase the present established sewerage system and the Water and Sewerage Commission is instructed to begin at once preparations for the installation of a modern and adequate system—one that will meet the present and prospective requirements of a rapidly growing city.

The report of the engineers, Messrs. Lucas, Humphreys and Rapalje, was received and action taken at a joint meeting of the Board of Aldermen and Board of Audit and Finance last night. The meeting was called to order at 8 o'clock by Mayor Walter G. MacRae, who presided, with the following in attendance: Aldermen Hall, Yopp, Bonitz West, Ellis, Hinton, Willard and Stone, and from the Board of Audit and Finance, Chairman M. J. Heyer and Messrs. M. G. Tiencken and Jesse Wilder. City Clerk and Treasurer J. J. Fowler was at his post and Capt. T. D. Meares, clerk to the Board of Audit and Finance, was also in attendance. Mayor MacRae stated that the object of the meeting was to hear the report of the engineers employed to make a thorough investigation of the value of the present sewerage system and to take such action as was deemed advisable. Clerk Fowler then read the report, which is appended.

Upon motion of Alderman Hinton, chairman of the Water and Sewerage Committee, the report of the engineers was acepted and the proposition to purchase the present sewerage system was declined. Then came the question of who should construct the new system. City Attorney McClammy read several sections of the act creating the Water and Sewerage Commission and while the meaning of one section was said to be somewhat obscure, he construed the law upon the whole to mean that the system should be constructed by the Water and Sewerage Commission. Alderman Hinton moved that the Commission be instructed to proceed at once to construct the new system and the motion prevailed. The suggestion contained in the report of the engineers that if it was found that a portion of the present system could be used advantageously that it be purchased, was discussed at some length. The concensus of opinion seemed to be that if it was found advisable to use any portion of the present system the Commission could take up the matter of purchase with the concurrence of the Aldermen and Board of Audit and Finance.

The members of the Board of Audit and Finance then retired, the meeting not having been in session as long as 30 minutes, and the Aldermen proceeded to consider other matters, particularly that of permitting the Red Men to hold a carnival here in November.

Alderman Hall, who was not present at the meeting Thursday night, brought up the carnival matter. He said that he received yesterday morning a communication from the Retail Merchants' Association asking that the board reconsider the action of Thursday night in granting permission to hold the carnival. Mr. Hall said that the merchants desired a hearing and he considered it only fair that any objections they had should be heard. He was opposed to carnivals upon general principles. They were detrimental to the business interests. He was strongly supported by Alderman Stone, who was also absent Thursday night. Alderman Yopp said that he talked with a number of merchants during the day and the reasons given for entering objections was on account of blocking the streets. He thought that if the carnival was held on private property there would be no objection. Alderman Willard had received a communication from the Merchants' Association, and they did not ask for a reconsideration of the matter, merely wanted the Red Men to pay the usual tax exacted. After considerable more discussion Alderman West, chairman of the Red Men Comimttee, and who presented the petition for permission to hold the carnival, stated that if the Aldermen were going to confine the carnival to Second street, between Princess and Dock, a private lot would be preferable. He accordingly moved that the former action be rescinded and that the Red Men be permitted to hold the carnival on the vacant lot at the corner of Fourth and Campbell streets, with street concessions. There was some opposition to this, but the motion prevailed.

Mayor MacRae brought up an important matter just before adjournment—a proposition to erect a new building at the southwest corner of Princess and Fourth streets, where the fire department is at present, to be used by the police and firemen, with stables for the city teams in connection. He said that this was badly needed and he thought the Board of Audit and Finance would concur in the proposition. On motion, the matter was referred to the building committee to secure plans, etc.

Engineers' Report.

The report of the engineers, which is thorough and comprehensive, is as follows:

Wilmington, N. C., Aug. 26, 1909.

Mr. J. H. Hinton, Chairman of Sewerage Committee, Board of Aldermen, Wilmington, N. C.

Dear Sir: Referring to our proposal of June 4, last, in response to your invitation of May 31, 1909, to report on the sewerage system owned by Wilmington Sewerage Company, which proposal was accepted by your letter of June 10, 1909, we have to report as follows:

We recommend that the city do not purchase the existing sewerage system.

1. We have made an engineering examination of the territory now occupied by the Wilmington Sewerage Company's system, with a view to determining what additional territory, not now sewered, may be dependent on the present system. We find that while there is some unsewered territory tributary to the existing districts, that might in a new system be advantageously included with the present sewered territory, there is none that cannot be effectively sewered independently. Accompanying this report is a map showing the results of this investigation.

2. We have made calculations to determine the adequacy of the present system for present and prospective needs and find that the system of the Wilmington Sewerage Company is embraced in two drainage districts: (a) Western district, bounded on the north by Red Cross street, on the east by the ridge running approximately north and south in the vicinity of Seventh street, on the south by Queen street, and on the west by the Cape Fear river; and (b) eastern district, lying east of the above mentioned ridge and bounded on the north by the railroad cut, on the south by Nun street, and on the east by Ninth, Tenth and Woods streets.

(a) Western District: Having outfalls emptying directly into Cape Fear river; we find this part of the system to be adequate for the present needs of that district, and can be made adequate for the additional territory which it may have to serve, and for the increase in population in the area it now covers.

We find the total length of pipe in the western district to be 76,208 linear feet, of which 15,328 feet, or 20 per cent, is laid on defective grades; also that of the total length of the pipe in the western district, 60,744 feet, or 79.7 per cent. is six inch pipe.

(b) Eastern District: Having its outfall into the disposal plant at Burnt Mill Creek; we find this part of the system to be defective in capacity and grades. Some portions of that part of the trunk line extending from Grace street to the disposal plant is laid on very flat, or nearly level, grades, which causes the sewerage to rise in the manholes until sufficient head of water is reached to produce a flow through the pipes. Since city refuse is much lighter than water, this naturally rises to the surface, thus putting these manholes in a foul and unsanitary condition. The same condition exists in the two inverted siphons.

That part of the sewerage which escapes the above-mentioned manholes and siphons finally reaches the disposal plant. This plant would be very efficient if it were kept in proper repair and were regularly cleaned.

The total length of pipe in the eastern district is 25,710 linear feet, of which 10,445 feet, or over 40 per cent., is laid on defective grades, and 19,973 feet, or 77.7 per cent., is six inch pipe.

3. We have made a thorough physical examination of the system. Summing up both districts we find:

Plant: The entire system comprises 171 manholes, 18 flush tanks, nine outfalls, one disposal plant, 101,918 feet pipe, of which 4,180 feet (4.1 per cent.) is eight inch cast iron, 17,016 (16.7 per cent.) is eight inch terra cotta pipe, and 80,722 feet (89.2 per cent.) is six inch tera cotta.

Grades: Taking a minimum grade .40 per cent. for eight inch and .70 per cent. for six inch pipe, which slopes are necessary to give the proper velocity of flow, we find in the entire plant 25,773 feet (25 per cent.) to be defective, by reason of grade alone. This fault is so predominant in the trunk line of the eastern district, 40 per cent. of the pipe in that district being laid below the minimum allowable grade, that the whole eastern system is rejected. Adding 15,328 feet, that part of the western system defective in grade, to 25,710, the whole of the eastern system, gives 41,038, or a little over 40 per cent. of the entire plant, which is rejected from the standpoint of defective grades alone. Appendix No. 1 shows the percentage of pipes on the various defective grades, in tbulated form.

Flushing System: We have filled and discharged into the pipes each of the 18 flush tanks, and have followed each flush as fa ras we were able to detect it, from manhole to manhole, toward its respective outfall. At each manhole we made careful observation as to the time the flush took in reaching the manhole and the effect it had toward cleaning the sewer. In a great many cases we found the manholes containing much sewerage before the arrival of the flush and also after its departure. In many cases, and in a few instances the flush entirely disappeared in going from one street corner to the next. Attached is appendix No. 2, showing report of these observations in detail.

Alignment: In making observations for alignment a 32 C. P. light, with reflector, was lowered into the manholes (situated about half way from street corner to street corner) and observations were taken from the manholes of the two adjacent street corners. In some streets the lamp post could not be found, in which case the light was lowered in the manhole at one corner and observation taken in the manhole at the next corner. With but few exceptions no light could be detected through the pipes, showing that the pipes are not laid straight from manhole to manhole.

Size of Pipes: Of the total length 101,918 linear feet of pipe in the plant, 80,722, or about 79 per cent. is six inch pipe, and no pipe in the entire system is larger than eight inches in diameter. We do not believe that six inch pipe should be laid in any system, except in the cases of very short lines, land on very steep grades. These last two conditions are far from being fulfilled in the system under consideration.

4. For the reasons which we have set out in detail above, we believe that it is unadvisable for the city to purchase the existing system; on the contrary, we recommend that a new system be installed by the city as soon as possible, in which the defects existing in the present system shall not be permitted.

5. Taking into consideration the fact that an eight inch pipe has 1.77 times the capacity of a six inch pipe, and costs but little more laid in the ground, it is our opinion that no pipe smaller than eight inches should be used in designing a complete municipal system.

The natural topography of the city of Wilmington is such that a sewerage system laid on satisfactory and regular grades is thoroughly feasible. Such a system should be designed with a view to the demands consequent on future growth, it should conform with the requirements of the best modern practice in sanitary matters, and it should be constructed under careful and constant supervision, so that the reality will measure up with the design.

Respectfully presented,

E. VANC. LUCAS,
C. R. HUMPHREYS,
H. deW. RAPALJE.

Suggestion: In fairness to the capital invested in the present plant, we suggest that the Water and Sewerage Commission, if possible, incorporate in the new system such parts of the existing system as the engineers which they place in charge of the sewerage work may find to be free from defects.

E. VAN C. LUCAS,
C. R. HUMPHREYS,
H. deW. RAPALJE.

Accompanying the report is the appendix No. 1 and 2, referred to, and a mass of other information, besides a comprehensive map of the system.

At the Bijou Today.

As usual the Bijou has a very attractive Saturday bill to offer its many patrons today in the presentation of "Ben's Kid," one of the best Western pictures shown in this city. It will doubtless be witnessed by very large audiences at each performance. A feature of the performances will be large stereopticon pictures of the Wilmington baseball team collectively and individually as recently taken at the park by Hodges, the photographer. This feature is well worth the price of admission.

Magnificent Showings
—OF—
Fall Silks
Enchantingly Pretty Weaves, Radiant With Autumnal Colorings

Beautiful as the mountain side when the Autumn sun shines on the trees and grasses of dull brown, green and gold, are the new silks for the coming season.

Rich messalines, taffetas and rough effects and every weave which Fashion has declared worth while is here at a tempting price. Silks which are correct in every detail.

There is a lot of humbuggery about silks. Many a beautiful sheen conceals a coating of lead, to give weight, which causes the fabric to cut with very little wear.

When you buy our silks you buy absolutely the best quality to be had. That is why among women of this vicinity our silks have such a recognized standard.

Choose the silks for the new dress from among these enticing values.

Extra Interest will Center in these $1.25 Messaline Silks, this week at $1.00.

Full yard wide in all the new shades. Exceptionally good value to start the season.

Trimmings to match are also here.

These consist of braids and Persian net bands. You'll like the quality.

Fruit Jars all sizes.

INLAND WATERWAYS PROJECT.

Engineers at Southport Preparing to Begin Surveys.

The following from this week's Standard will be read with interest here:

"Preparations are being made by the corps of engineers to begin probably within a few days the survey from Southport to Little River, S. C., for the proposed great inland waterway. Mr. Stephen Harris, of New York, who will be chief engineer in charge, was here for several days this week, and in company with Mr. Chas. E. Gause, of this place, made a several days' trip overland to Little River as a preliminary to locating the direction of the survey and to study the nature of the country to be traversed.

"For the present the Government building on the Garrison will be used by the surveying force, but later a house boat, which is now in course of construction, will be used on the small creeks and rivers on the route. There will be in the surveying party about 12 men and it is stated that it will take seven or eight months to complete the work. A corps of engineers are already on the stretch between Little River and Georgetown."

A force of workmen have been engaged for several days repairing the Government building on the Garrison preparatory for occupancy by the surveying corps.

FISHERMEN HAVE LUCK.

Over 4,000 Bunches of Mullets Caught in the Sounds Yesterday.

Notwithstanding the fact that the fishing crews at the sounds have been at a disadavantage for the past few days on account of the variable winds, two good hauls were made yesterday and was the best so far this season. Mr. James Hewlett and his crew at Masonboro Sound yesterday successfully landed 3,000 bunches and Mr. J. P. Walton, the superintendent of the Carolina Yacht Club, made a haul of 1,600 bunches.

They found a ready demand for them on the market, due to the fact that they have been unsually scarce for the time of the season.

SPORTS ON LABOR DAY.

Attractive Programme Being Arranged at Lumina Monday Week.

Arrangements are being made to have some very exciting sporting events at Wrightsville Beach on Labor Day. It is expected to make these events even better than those seld on July 5th. There will be foot races, etc., on the beach, canoe and swimming races in the surf. An effort will also be made to have surf board contests such as are held on the Pacific Coast. This contest consists of riding the surf on a large board. The surf boards have become very popular at the beach and quite a number of young men are enjoying the sport. A full programme will be announced later.

Grace League Excursion.

A large party went on the Grace Epworth League excursion of the steamer Wilmington last evening and the trip proved a very pleasant one. Besides the members of the League were a large number of the friends. The steamer went as far as Carolina Beach pier and arrived on the return about 11 o'clock. This is one of the last of these enjoyable trips this season.

Better Not Take Whiskey.

The next time you have a sudden chill—you or any of the folks at home—don't bother with whiskey or waste time. Take quickly a teaspoonful of Perry Davis' Painkiller in half a glass of hot water or milk. Its good record of 70 years proves reliability. At your druggist's. The new size is 35c. or 50c. a (larger) bottle. You ought to have it on hand.

NEW COMPANY ISSUES BONDS

Deed by Southern States Cotton Oil Refining Co. to Empire Trust Co. for $700,000 Filed to Secure Bonds.

In the register of deed's office yesterday morning was filed a deed of trust from the Southern States Cotton Oil Refining Company, of Wilmington, to the Empire Trust Company, trustees, of New York City, to secure an issue of $700,000 in bonds, which amount the first named company proposes to issue for the purpose of erecting and operating a big refinery in this city and several cotton oil mills at other points.

The bonds are to be issued in denominations of $1,000 each, run for 21 years and bear interest at the rate of 6 per cent. per annum, payable semi-annually. The decision of the stockholders of the first named concern to issue bonds to finance the big enterprise was reached at a meeting held in Zezulon, N. C., January 16, 1909. The company is to provide a sinking fund by paying to the trustee annually 10 per cent. of the net profits of the business after January 1, 1912. The members of the company are exempt from labilities so far as their property outside of the holdings of the corporation are concerned.

The Trust Company is secured by a first mortgage on all the property of the Southern States Cotton Oil Company, including rights and franchises, real estate, buildings and improvements thereon; engines, boilers, machinery, tools, implements and appliances, stock in trade, manufactured goods and raw materials on hand and whatever other property that may be held by the refining company.

It will be recalled that announcement was made some time ago that the Southern States Cotton Oil Refining Company would erect in this city at an early date a refinery costing, it was estimated, over a quarter of a million dollars, and that work had been commenced on oil mills at Whitakers and Jackson, N. C. The oil mills being erected by the company will supply the crude oil for the refinery in this city. The new enterprise will mean much to Wilmington as it will be one of the largest plants of the kind in the State and wil employ a large number of hands. It will be located at the intersection of the Market street road and the Atlantic Coast Line railway.

MR. SEARS ASSAULTED.

Cowardly Negro Struck Him With Brick and Broke a Rib.

Mr. Frank W. Sears, one of the managers for the Hammer Lumber Company, was struck with a brick by a negro stevedore and severely injured yesterday shortly after 12 o'clock, when the former was climbing from the schooner Ames to the wharf, near Princess street dock.

Mr. Sears has been superintending the loading of a vessel at Point Peter and Elisha Fisher, his assailant, was discharged for neglecting his work. The discharged negro came over in the boat from Point Peter with the remainder of the crew at the usual hour, and the launch was stopped alongside the schooner George E. Ames to allow the stevedores to get off for dinner. Prior to this, when Fisher was told by Mr. Sears that he would not need him any longer, he made some disrespectful remark, whereupon Mr. Sears justly proceeded to knock him off the vessel. The negro did not show any signs of fight when he was being brought across in the boat and crossed over the schooner Ames to the wharf with the other stevedores and waited.

Mr. Sears, after he had tied up the boat, came across the vessel and when he was climbing down on the wharf side Fisher grabbed a brick and before Mr. Sears could get to the wharf struck him a severe blow and made away at a rapid pace. The brick landed on his right side, breaking a rib and inflicting a fearful bruise. He was stunned and it was some minutes before he could recover himself.

Several persons who saw the brutal assault, among whom were a number of colored stevedores, immediately went in pursuit of Fisher and he was chased for some distance.

A warrant was issued for his arrest and Constable W. B. Savage with the police officers are making a determined effort to apprehend the negro.

Escaped From County Farm.

The police were notified yesterday of the escape from the county farm Thursday morning of Annie Bryant, colored, sentenced from the Recorder's court Monday to a term of three months for shoplifting. It appears that she crawled down a ditch to a point wheer she would not be observed and then got out and made off rapidly. The superintendent offers a reward of $5 for her capture. She was sent to the farm with Maggie Myers, colored, both being convicted of stealing articles from Gaylord's and Kress' Saturday night.

Mr. Huhn Bitten by Rattler.

Mr. William Huhn, care-taker of the Cape Fear Golf Club grounds, was bitten by a rattle snake yesterday morning while at work on the grounds. The rattler sank his fangs into Mr. Huhn's right thumb and the hand was badly swollen by the time he reached the city, where he was given medical attention by Dr. J. C. Wessell. The wound is considered serious, especially in view of the fact that so much time elapsed before medical attention could be given. Mr. Huhn was resting easy at last reports, however.

Our Regular Interest Period.

will begin September 1st. Deposits made with us on or before September 2nd will receive interest within three months (on December 1st). The Wilmington Savings & Trust Company.

SPLENDID ENTERTAINMENT

Large Crowd Attended Enjoyable Event at Lumina Last Night Under Auspices of Daughters of Confederacy.

One of the most enjoyable entertainments it has been the privilege of Wilmington people to attend in a long time was given at Lumina last night under the auspices of Cape Fear Chapter, United Daughters of the Confederacy. The programme, given in The Star yesterday morning, was varied and interesting and the frequent and prolonged applause attested the appreciation of the large audience.

Miss Louise A. Williams, of Augusta, Ga., in her impersonations of the old-time darkey, both in song and the stories she related, completely captivated the audience from her first appearance upon the platform and each subsequent appearance was hailed with delight. She is indeed an artist and this fact was readily recognized by the audience, which was a cultured and representative one.

The various other numbers on the programme were well received and each participant shared liberally in the honors of the evening.

The song, "Sing Me a Song of the Sunny South," by Mr. H. K. Holden, Southern Medleys by the Fenley boys and selection by the Acme quartette, were superbly rendered and added materially to the pleasure of the evening as was attested by the numerous encores. One of the most stirring incidents of the evening was the unfurling of the old battle flag of the Third North Carolina Regiment by Master Dougald MacMillan, while the Lumina Orchestra played "Dixie."

The entire pavilion was beautifully decorated, the decorations of the flag dance Thursday night being greatly supplemented. The stage was decorated with pine tops, pine burrs, gray moss and flags while the colors of the Daughters of the Confederacy, red and white, were much in evidence.

Captain Corbett announced that there were a number of beach visitors who were so thoroughly delighted with the entertainment that they desired to contribute something, and Messrs. William deRosset, Cuthbert Martin, Martin Willard and Jos. D. Smith were asked to take up the contributions, which amounted to about $25. The Tidewater Power Company will turn over to the Daughters a liberal per cent. of the receipts of the night and the ladies are well pleased with the event from a financial standpoint.

Improvement at People's Bank.

Workmen yesterday commenced tearing up the old tiling in the lobby of the People's Savings Bank, corner of Front and Princess streets, and within the next few days will place a handsome new tile floor. It will be a decided improvement. Mr. J. Carewe is the contractor.

The First Saw.

Talus, the Greek, is said to have invented the saw from having once found the jawbone of a snake, which he employed to cut through a small piece of wood. In early periods the trunks of trees were split into boards with wedges, and, although these deals were not always straight, they were regarded as much better suited to construction than sawed boards because they followed the grain and lasted longer and were stronger. Water mills for the purpose of sawing came into use in the fourth century.

The man who is always making good resolutions is at least better than the man who is always doing mean things. —Atchison Globe.

Washington's Plague Spots

lie in the low, marshy bottoms of the Potomac, the breeding ground of malaria germs. These germs cause chills, fever and ague, billiousness, jaundice, lassitude, weakness and general debility and bring suffering or death to thousands yearly. But Electric Bitters never fail to destroy them and cure malaria troubles. "They are the best all-round tonic and cure for malaria I ever used," writes R. M. James, of Louellen, S. C. They cure Stomach, Liver, Kidney and Blood Troubles and will prevent Typhoid. Try them, 50c. Guaranteed by R. R. Bellamy.

WOMEN'S WOES.

Wilmington Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing-down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.

Miss Maggie Rivenbark, 105 Dock St., Wilmington, N. C., says: "I found great benefit through the use of Doan's Kidney Pills, procured at R. R. Bellamy's drug store. I suffered from constant, dull pains in my back and some days I could hardly get about the house. Mr. kidneys were very weak and I was caused much annoyance by too frequent passages of the secretions. I used several remedies, but nothing gave me the desired relief until Doan's Kidney Pills were used. They proved to be just what I required and in a short time cured me so completely that my trouble has never returned."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name — Doan's — and take no other.

ANOTHER TO RALEIGH

(Continued From First Page.)

error of Nichols at short and Haas singled to right; Irwin was up and Haas and Hoover pulled off a double steal for a clean score. For Wilmington Smith flew to centre; Ross got another bingle to right, but Brodie fouled out to catcher and Sharp, batting for Sexton, fanned.

Round Dozen Against Champs.

Rocky Mount, N. C., Aug. 27.—A round dozen was what the tail-enders piled up against the league leaders this afternoon and the crew drove side wheeler Cowells from the mound. Score:

Rocky Mount ..303 104 10x—12	11	0
Wilson .....000 000 000— 0	9	5

Thorpe and Walsh; Cowell, Ferrell, Gilmore and Miller; time 2:00; umpire McLaughlin; attendance 1,100.

Fayetteville Took Both.

Fayetteville, N. C., Aug. 27.—Fayetteville took both games of a double-header from Goldsboro today by the scores of 4 to 2, and 4 to 1. The Highlanders batted, fielded and ran bases up to their standard, and outclassed their opponents completely. They banged Otis, who is certainly a "grand"pitcher, for eight hits, while Luyster allowed but five. While they hit Pritchard but five times their swats came at the right time and three of them were doubles while Watters held the visitors to three scattered hits, a single, a double and a triple. The first game was won by three singles and a steal, two errors and a passed ball and two passes and a hit. The second game was cinched in the first inning when Shumaker drove in two runs and scored on fielder's choice. O'Neill's fielding featured both games. Score:

Goldsboro .....000 000 200—2	5	4
Fayetteville ....200 010 01x—4	8	2

Otis and Stubbe and Fulton; Luyster and Galvin.

Second game:

Goldsboro .....100 000 000—1	3	2
Fayetteville ....300 000 10x—4	5	0

Pritchard and Francis; Watters and Galvin; umpire Upchurch; attendance 700.

Official League Standing.

The Star last night received the following official communication from Secretary R. T. Gowan, of the Eastern Carolina League:

Raleigh, N. C., Aug. 27th, 1909.
Morning Star, Wilmington, N. C.

Dear Sir:—At the meeting in Goldsboro the games in which Luyster pitched before he was re-instated July 30th, were forfeited and given to the opposing team. Make the following changes in the percentage column: Add one to Wilmington won column, add two to Wilson won column, add two to Raleigh won column and take four from Rocky Mount's won and add to loss column.

R. T. GOWAN, Secretary.

SPARKS FROM THE FORGE.

"And people passing down the street
Glance in at the open door;
They love to catch the anvil's ring,
And hear the Knockers roar!"

C. O. D.

Half mast!!

Reversed Ensign!!!

And other things relevant!!!!

Are we down-hearted? Well I should snort!

Just cast your lamps on the bunch of inverted noses.

The Sailors were not half as seasick as this self-same scribe is.

"One, two, three, four, five, six, seven, eight, nine, ten—Knock out!"

Smoke up, Wilson; you're going out! Sand your tracks; you're slipping.

The Harnett County Pope's service was a great deal of a puzzler to the nought-ical boys.

The old subway companions, Fayetteville and Rocky Mount, have been making things hum in the league the past few days.

We've heard of many funny things, upon this mundane sphere, but a Pope who does white-washing, that surely sounds most queer.

Chief Thorpe, with his trusty band of eight swatsmiths, formed a war party that worked the kibosh on Wilson and scalped her clean.

Heap Much Heaver Thorpe, Big chief of 'em all, wig-wamed the boastful Tobacconists as fast as they chanced in front of his mighty bow.

Two beautiful opportunities to again lift the pennant were relegated to oblivion when the curtain was drawn over the carnage of Thursday and yester eve.

The Kilties are moving at such a brilliant and accelerating gait, we can't risk watching their flight with the naked eyes, but have commenced smoking glass to observe the wind-up.

Can't help, at a time like this, from giving vent to our feelings, but, upon mature thought, guess it would be going too far to risk putting those feelings into print. The public wouldn't stand for it.

Something will drop today. All we want is this afternoon's game, and then we'll have done our part, relying on those Rusting Railroaders to twist at least one more knot in Withering Wilson.

The Immortal Bard never would have said there was something putrid in the State of Denmark had he been a Wilmingtonian the past few days. His remarks would have been confined a little nearer home.

In speaking of the Raleigh matinee, the News and Observer stated they were assured "one of the best baseball men on the Western Union would handle reports at Wilmington." Couldn't have meant anyone but our 'Dolphus, who is always key-ed up when a game's on hand.

"While there's life, there's hope," but we've got to have the life. Get into the game, Sailors, and show those Red Birds what ball playing really is like. If there's any dissension among you (as is intimated) for the pennant's sake take something and get rid of it. There couldn't be a more inopportune time to nurse a grouch.

The Raleigh News and Observer headlined Brandon as beating the Sailors. Without destracting from the Rube's record (for he rides on the wings of victory, as well as goes down to defeat, smiling, a very rare quality in most twirlers) have to remark it was rather a case of the Sailors defeating themselves Thursday, as a cursory glance at the detail clearly indicates. Still Brandon couldn't be expected to turn down loving-cup presentations.

Thanks, Rocky Mount! Assume we can publicly express our appreciation of the way you've trimmed Wilson the past two days without being subjected to Evanse-ly criticism, as Wilson correspondence in the Raleigh News and Observer hurled a few delicately worded saccharine bouquets at Raleigh for lifting Thursday's affair from us, though it is to be noted, with humor, the pen-pusher carefully refrained from stating Raleigh possessed the best team in the league; artfully putting it, Wilson first, and Raleigh afterwards.

A Bad Man.

Herman Whitaker wrote a story of the Tehuantepec rubber plantation. Guadaloupe, the mandador on one plantation at which Mr. Whitaker stayed, was informed that he was to be one of the characters in his story. "He never failed to question me each day as to the things I had made him do—in the story," said Mr. Whitaker. "When one morning I informed him that I had killed him off, he expressed great surprise.

"'Porque, senor, porque?'

"'Because you are a bad man, Guadaloupe.' Which was perfectly true.

"'I, senor?' he questioned, greatly surprised.

"'Si, Guadeloupe, you are bad. Think of how many men you have killed, according to your own count.'

"He thought for awhile, then looked up with a humorous smile. 'Oh, well! Did I put up a good fight?'

"'You bet you did, Guadaloupe.'

"Whereupon eyebrows and shoulders went up in a shrug. 'Bueno! Bueno! Then it ees all right.'"—St. Louis Post-Dispatch.

The Colleges of Oxford.

Each college is built round a quadrangle with a large entrance gateway which often rises into a quasi tower. The rooms immediately over the gateway are invariably designed for the residence of the warden, provost or principal of the college, so that the eye of the master may be over all who enter or leave the place. This mode of building still exists in India, having been introduced into Europe by the Moors when they conquered Spain, where we find that the compound, or quad, is still used for the tethering of all kinds of animals. Around the quad are arranged the chapel, library, hall or refectory, president's lodgings, buttery and kitchen. The students' rooms generally occupy the upper floors. William of Wickham, the celebrated architect, wisely placed his taller buildings—the chapel and hall—on the north side to keep off the cold winds, the lower buildings on the south more freely admitting sunshine.

"Think, love!" said Mrs. Gobso Golde, "I ordered a dinner gown, and that tiresome dressmaker has sent me a traveling suit."

"Well," what are you going to do about it?" Gobso Golde demanded.

"The only thing is for us to go abroad again," she sighed.—Exchange.

Miss de Fashion—Mother, what shall we send Miss de Styles for her wedding present?

Mrs. de Fashion—Will the list be published in the paper?

"No; she says that's vulgar."

"Send her a plated saltspoon."—Liverpool Mercury.

Teacher—Yes, Willie, every little boy in this country has a chance to become president.

Willie—My brother hasn't.

Teacher—Why?

Willie—'Cause he sold me his chance yesterday for 3 cents.—Kansas City Journal.

The term "acre foot," used in mining, is that volume of water which covers an acre to the depth of a foot, 43,560 cubic feet.

SPIRITS TURPENTINE

—Fairmont Messenger: Quite a good deal more tobacco has been sold on this market to date than for some time last season and the season promises to be longer.

—Salisbury, Aug. 26.—A concern which is doing a deal of work without saying much about it is the Taylor Mattress Company. Just now they are filling orders which amount to four solid car loads

—Pender Chronicle: Bulletins announcing the soil survey of Pender county by Mr. H. H. Bennett, the soil expert who is in charge of the work of the Atlantic Division, have been received. Our soil is highly complimented and said to be of best variety.

—Wilson, Aug. 26.—A contract was awarded today to the Specialty Construction Company, of Norfolk, Va., to complete the contract of the late James Mulligan for macadamizing the public roads for Wilson township. The work let out today calls for expenditure of $25,000 for seven miles of road.

—Pender Chronicle: The buildings and stock of the Croom Bros' big stores on Main street have been undergoing considerable change recently. W. D. Croom & Brother have done much toward building up Burgaw and it is indeed gratifying to see them put their stores in such first-class shape.

—Fairmont Messenger: Mr. F. C. Jones has accepted position as conductor on the new railroad which has just been completed from Hasty, S. C., to Laurinburg and is being rapidly built from Laurinburg to Raeford. Mr. Jones has many friends who regret his leaving us but trust he may be pleased with his new job.

—Raeford Facts and Figures: The red spider is playing havoc with cotton on some farms in this section. There are acres where the stalks are stripped of foliage like the dead of Winter. This tiny insect, too small to be seen by the natural eye, made its appearance a few days ago, but is doing a swift and destructive work.

—Hickory, Aug. 26.—Jim Jenkins, living near Lenoir, was engaged the other day in the pleasant pastime of beating his wife when their son, Marshall, interfered and in the fracas that ensued the elder Marshall was so badly stabbed by his son that his recovery is doubtful. The son also is considerably bruised.

—Salisbury, Aug. 26.—The Southern Railway is adding another link of double track through North Carolina. Engineers are surveying for the new track between Salisbury and Glass, near Concord, and material for the work is now being shipped. This double track will be put in use at the earliest possible moment. The new track will be on the east side of the old line.

—Both gins are being put in perfect order to begin work and cotton is beginning to show color through the cracks of the bolls. Mr. D. W. Galloway will buy again this season. The first bale of cotton sold in town was sold yesterday, Aug. 25, by Mr. Alfred Turner, and was bought by Mr. E. V. McDaniel. The bale weighed 514 pounds and brought 12 cents per pound.

—Salisbury, Aug. 26.—Some spicy stuff is promised this city for the Labor Day celebration, to be held on Monday, September 6th, should Editor R. Don Laws, of The Yellow Jacket, accept the challenge for a joint debate with Col. Dick Maples, editor of The National Ripsaw. Mr. Laws is a Republican while Colonel Maples is a Socialist, and the subject selected for the debate is "Republicanism vs. Socialism."

—Maxton, Aug. 27.—Mr. R. M. Forbes while in swimming in Lumber river this afternoon, was drowned about 5 o'clock. Mr. Nolan White who was with him at the time, was unable to account for the unfortunate man's accident, as Forbes had told him he could swim. He was a Scotchman and had just arrived here yesterday morning to make his home with Mr. James McBryde and to learn farming. The body has not been found as yet. Search for it will be resumed tomorrow morning.

—Jacksonville, Aug. 26.—While a picnic party, consisting of a number of children with their parents, was en route from Jacksonville to Town Point today, aboard the launch Daniel Lester, the ten-year-old son of Mr. and Mrs. Hill Humphrey, accidentally fell overboard and was drowned. Searching parties have been dragging the river several hours, but thus far have not succeeded in recovering the body. Lester was a bright and promising boy and his tragic death has prostrated his parents, who are numbered among Onslow's most prominent citizens, and has brought sadness and gloom to the hearts of the host of friends.

—Asheville, Aug. 26.—All efforts to locate Mrs. Garren, wife of Lonnie Garren, who disappeared mysteriously from Dr. Battle's bungalow on Beaucatcher mountain Tuesday night, have been without avail. It is thought now that Mrs. Garren has left town; that she went on an early train Wednesday morning. Yesterday a careful search of the mountain was made but no trace of the missing woman could be found. Upon searching the house it was found that Mrs. Garren's best clothes were missing, including her best hat and other garments, and this leads to the belief that she has gone away.

The Seaboard Tour

Washington, Niagara Falls, Toronto, Thousand Islands, Montreal, Quebec, Down Lake George and Champlain and Four Days in New York City, at Very Attractive Rates.

Leaves September 1st—Personally Conducted by Mr. C. H. Gattis.

The SEABOARD announces their second ANNUAL TOUR, personally conducted, by C. H. Gattis, District Passenger Agent, chaperoned by Mrs. C. H. Gattis, same being under their personal supervision, through the North and Canada, taking in all the principal and most attractive Resorts in the East, leaving Raleigh September 1st, via Portsmouth—Norfolk, Old Point Comfort, up the historic Potomac to Washington, thence through Baltimore, Philadelphia and the scenic Lehigh valley to Niagara Falls, Toronto, taking in the Grand Toronto Exhibition, through the Thousand Islands, down the St. Lawrence River to Montreal and Quebec, returning via Lake George and Lake Champlain through Saratoga and Albany to New York, where four days will be spent.

The cost of the trip will include railroad, steamship and Pullman fares, transfers hotel accommodations, side trips, etc., as shown in itinerary—in fact will include practically every necessary expense with the exception of a few meals en route and while in New York city, and is made at the lowest possible amount.

This route has been selected after the most careful consideration, giving the best advantage for sight-seeing at most interesting points. Sufficient length of time will be spent at all stop-over points for sight-seeing and all arrangements made for the pleasure and comfort of the party.

C. H. Gattis, District Passenger Agent, will devote his entire time to the party and will look after all necessary details, etc., for the comfort and pleasure of all, and this is assured as the Seaboard has had considerable experience in handling these tours, as any one who has been with them in the past will be glad to tell you.

Mr. and Mrs. Gattis will be assisted by Mr. and Mrs. James Ker, Jr., of Charlotte, N. C.

For itinerary of tour write at once to the undersigned and those who desire descriptive literature relative to route over which party will travel, etc., will be forwarded same upon receipt of request with 25 cents in postage to cover mailing of same.

The party is fast filling up and those desiring to join should make reservation without delay.

District Passenger Agent
Raleigh, N. C.
C. H. GATTIS.

Attractive Variable Route—Excursion Fares by the ATLANTIC COAST LINE.

The Atlantic Coast Line has issued a folder announcing attractive excursion fares to a number of Eastern resorts, including Niagara Falls, Montreal and Quebec, going and returning by the Atlantic Coast Line as far as Washington, but by widely variable routes north of that city, that is, a passenger can select almost any route from Washington to destination and return by almost any other regular route.

These rates open up a new method of traveling and will no doubt be largely patronized, as New York, Boston and nearly all the Eastern resorts can be reached by one of these "Variable Routes," or what may be more properly termed "Circular Tour," tickets especially as liberal stop-over privileges will be allowed.

One of the folders giving the routes in detail with rates and other information may be obtained by calling on or addressing the undersigned.

TURKEYS—Out of season.

THE COTTON MARKET.

(By Wire to the Morning Star.)

New York, Aug. 27.—The cotton market made a generally steady showing today without, however, any particular increase in activity or broadening of speculative demand. Bullish crop acounts from the eastern belt and rumors of a bullish National Ginners Association report were among the factors; the market closing barely steady at a net advance of 2 to 15 points. The market opened steady at a decline of 3 points to an advance of 2 points, near months being relatively easy, owing to yesterday's late reports of cheaper spot offerings from Texas, while later positions reflected bullish crop reports and the entire list sold up to a net gain of about six points soon after the call. The report of a prominent local authority on the Carolinas read more favorably than expected, but was offset by private reports of more recent deterioration in that section of the country, fear that the gulf storm might cause damage in South Texas and claims that the figures of a new cotton crop reporting agency pointed to a yield of under 11,000,000 bales. Nevertheless, prices eased off to within 2 or 3 points of last night's close under realizing, later firming up with the market becoming a little more active during the afternoon on encouraging trade reports from Liverpool and the continent and rumors that the National Giners' Association would make the condition 64.4, which was afterward denied with the statement made that the report would not be issued until Monday. The market closed within a point of the best. Southern spot markets officially reported early were unchanged.

Receipts at the ports today 10,245 bales against 2,514 bales last week and 14,880 bales last year. For the week 35,000 against 14,397 last week, and 71,458 last year. Today's receipts at New Orleans 1,323 bales against 507 last year.

Spot closed quiet; middling uplands 12.85; middling gulf 13.10; sales 800.

Futures opened steady and closed very steady.

Month.	Open	Close.

THE LIVERPOOL MARKET.

(By Cable to the Morning Star.)

Liverpool, Aug. 27.—Spot cotton moderate business done, prices five points lower to five points higher. American middling fair 7.27; good middling 6.91; middling 6.73; low middling 6.55; good ordinary 6.29; ordinary 6.04. The sales of the day were 10,000 bales of which 500 were for speculation and export and included 8,300 American. Receipts 5,000 bales, including 300 American.

Futures opened easier and closed firm. August 6.65; August and September 6.55 1-2; September and October 6.51; October and November 6.49; November and December 6.48; December and January 6.48; January and February 6.48; February and March 6.47 1-2; March and April 6.47 1-2; April and May 6.47; May and June 6.47; June and July 6.46 1-2; July and August 6.45 1-2.

THE DRY GOODS MARKET.

(By Wire to the Morning Star.)

New York, Aug. 27.—Buyers of dry goods are resisting higher prices in many ways but the strength of the market as a whole seems to be maintained. Yarns remain quiet and cloths in first hands are being bought carefully. Jobbers have had a fair week.

MARKET GOSSIP.

(By Wire to the Morning Star.)

New York, Aug. 27.—The stock market made some recovery today, but the undertone was hesitating and uncertain. It was plain that the drastic liquidation of the previous three days had left a number of weak spots, at which the aggressive bear party might renew its operations. Advices dealing with the health of Mr. Harriman were not altogether encouraging and Wall street, it must be admitted, is just now primarily interested in the future course of the Harriman properties.

One of the features of the day was the persistent pressure brought to bear upon United States Steel. That stock had weathered the recent storm better than almost any other issue in the active list, but today it gave evidence of yielding under the strain.

The stock was freely offered and before noon went under the previous day's low price. Trading was active, but orderly and the buying was sufficiently impressive to warrant the belief that it had its origin in responsible quarters.

During the early afternoon business was dull with narrow price movements and no definite trend either way. Just before the closing the list sold off abruptly on rumors again associated with Mr. Harriman, but in the final five minutes this condition underwent another change in favor of better prices and general net gains for the day. The closing, however, was decidedly irregular.

The bond market was irregular with much less business than on the previous day. Total sales, par value, aggregated $4,747,000. There were no changes in government bonds. Total sales today 1,171,000 shares.

FINANCIAL MARKET.

(By Wire to The Morning Star.)

New York, Aug. 27.—Money on call firm 2 to 2 1-2 per cent., ruling rate 2 1-2, closing bid 2 1-4, offered at 2 1-4. Time loans easier; 60 days 2 3-4 to 3 per cent., and 90 days 3 1-4 per cent., six months 3 7-8 to 4 per cent. Prime mercantile paper 4 1-4 to 4 3-4 per cent. Sterling exchange steady with actual business in bankers bills at 4.8525 to 4.8530 for 60 day bills and at 4.8685 for demand. Commercial bills 4.84 3-4 to 4.85. Bar silver 51 5-8. Mexican dollars 44.

Butter—Steady; process, firsts to specials 23 to 25 1-2.

Cheese—Firm and unchanged.

Eggs—Steady.

CHICAGO PRODUCE MARKET.

(By Wire to the Morning Star.)

Chicago, Aug. 27.—Excellent demand for cash wheat here and in the Northwest inspired lively buying of the options in the wheat market here today, resulting in a material rally. Closing figures showed net gains of 1 to 1 1-2c. Coarse grain and provisions also closed strong.

Leading futures were as follows:

LUMBER AND SHINGLE MILLS

The largest stock of cypress shingles carried in the State. We always have over a million in stock.

We make 13 different grades and sizes, varying from $2.00 to $10.00 per M. Our shingles are recognized in the Northern Markets, as well as in the West Indies, as the very highest standard, both in grade and manufacture. "We have a standing guarantee that " we give (2) good ones for (1) bad one."

Don't buy any shingles that do not have W. W. Koch in large type on every bundle.

We do not dip the ends of our shingles in red ocre to hide windshakes and other defects. Don't buy until you get our prices and compare the shingles. We make and dispose of 20,000 shingles per day.

We furnish all the shingles t for the government at Fort Caswell, ours being the only shingles tat stand government inspection.

To merchants we will sell all or any part of this stock at wholesale cost, for cash. The above applies only to goods from our wholesale department.

WILMINGTON FURNITURE COMPANY

Garrell Building. Second and Princess Streets.

BASE BALL

National League.

New York, Aug. 27.—Chicago defeated New York today 8 to 6 after a great up-hill fight, not scoring until the home team had made five runs. The result was in doubt until the ninth. Then after two bases on balls, Schulte doubled, scoring Evers. Sheckard tallied when Doyle let Bridwell's return of Schulte's hit get away from him. This was Chicago's only safety off Raymond, who relieved Wiltse in the sixth after Tinker had tied the score by making a home run.

Chicago	000 321 002	8	9 4
New York	023 010 000	6	12 4

Higginbotham, Overall and Zimmerman; Wiltse, Raymond and Myers.

Boston, Aug. 27.—Boston won its fourth straight game today, defeating Cincinnati 5 to 4. Curtis held the visitors to three hits but errors allowed them three of their runs. Boston won in the ninth inning on a hit by Curtis, two sacrifices ad Shean's single.

Cincinnati	020 110 000	4	3 2
Boston	201 001 001	5	6 5

Gasper and Clark; Curtis and Graham.

Philadelphia, Aug. 27.—Philadelphia batted three of St. Louis' pitchers hard today and won 13 to 3. Manager Bresnahan, of St. Louis, was put out of the game for disputing a decision on a batted ball.

Philadelphia	013 021 51x	19	12 1
St. Louis	000 001 200	3	8 4

McQuillan, Scanlon and Dooin and Martel; Beebe, Melter, Raleigh and Bresnahan and Bliss.

Brooklyn, Aug. 27.—Pittsburg players batted Wilhelm freely today and aided by errors, crossed the plate five times. Brooklyn could do nothing with Willis. A running catch by Burch in the eighth inning was a feature. Lennox was put out of the game in the third inning for kicking.

Pittsburg	002 021 000	5	14 1
Brooklyn	000 000 000	0	6 4

Willis and Bibson; Wilhelm and Bergen.

American League.

Detroit, Aug. 27.—Wilson was knocked off the slab by Detroit in the third inning, retiring after five runs had been scored off him. His successor was Chesbro and in the fourth Detroit gave one of the greatest exhibitions of run-making ever shown here. Fourteen men batted, ten runs scoring and two men, Cobb and Crawford, each hit a home run and a single in this period.

Detroit	302 1000 20x	17	19 0
New York	000 000 420	6	9 6

Willett, Lellevelt and Stanage and Beckendorf; Wilson, Chesbro and Sweeney.

St. Louis, Aug. 27.—Pelty's effective pitching and bunched hits in the fourth off Morgan, gave St. Louis a victory over Philadelphia today 2 to 1. Pelty gave but four hits, two of which came together in the fourth and netted Philadelphia's lone run.

St. Louis	000 200 00x	2	3 1
Philadelphia	000 100 000	1	4 0

Pelty and Stephens; Morgan and Livingstone.

Cleveland, Aug. 27.—Errors by Boston infielders gave Cleveland today's game 5 to 3. Falkenburg pitched steadily and had the contest well in hand.

Cleveland	101 200 10x	5	7 3
Boston	010 100 010	3	6 5

Falkenburg and Clarke; Cicatte and Carrigan.

At Chicago-Washington, rain.

Southern League.

At Memphis-Montgomery, not scheduled.

At Little Rock 8; Nashville 2.

At Mobile 1; Atlanta 2.

At New Orleans 1; Birmingham 1. (11 innings.)

2nd: Forfeited to Birmingham beginning 5th.

South Atlantic League.

At Columbia 4; Augusta 1.

At Macon 3; Jacksonville 2. (12 innings.)

At Columbus 1; Knoxville 0.

2nd: Knoxville 9; Columbus 0. (7 innings each.)

At Savannah 4; Chattanooga 6.

Virginia League.

At Danville 4; Norfolk 1.

At Richmond 4; Lynchburg 1.

At Portsmouth 4; Roanoke 1.

Carolina League.

At Greenville 3; Spartanburg 2.

At Greensboro 2; Winston 1.

At Anderson 10; Charlotte 0.

BREESE CASE WITH JURY.

Closing Scenes of Trial—Mr. Holton Denounced the Defendants.

(By Wire to the Morning Star.)

Asheville, N. C., Aug. 27.—The Federal court room was crowded today when the closing scenes of the Breese-Dickerson bank case which has been on trial for 33 days, were enacted. Many ladies were present to hear Judge Newman's charge which began at 4:45 P. M. The jury retired at 5:30 P. M., but will not come into court until 10:30 tomorrow morning when it will report whether or not its members have agreed on a verdict.

The day was featured by the closing appeal of Judge Charles Moore for the defendants, the arraignment of them by District Attorney Holton, and the charge of Judge Newman.

District Attorney Holton scathingly denounced the defendants as men who had robbed the bank of $257,000, and called for justice on those who, he said, had defrauded widows and orphans. In his charge Judge Newman said in effect that if it be found that the defendants had and wilfully misapplied the funds of the bank to their own use, the intent to defraud might be presumed.

At the meeting of the directors of the South Atlantic League at Augusta the forfeited franchise of the Jacksonville club was turned over to W. E. Gullett. There has been dissension among the Jacksonville club owners and a week ago the franchise was turned over to the league and the meeting today was called for the purpose of adjudicating conditions.

RIOT IS HOURLY EXPECTED

(Continued From First Page.)

have quit their jobs in the car plant are almost unbelievable. Conditions, according to these workmen were practically unbearable inside the car plant stockade. Soup prepared from rotting vegetables was served them, they declare, by filthy negro waiters, picked up from employment agencies in the slums of Pittsburg. Beds filled with vermin were given them to sleep on, they declare, while they were charged exhorbitant prices for clothing, even two-cent stamps selling at four for ten cents in the car company commissary. These stories were made the subject of affidavits late today in the government probe into alleged peonage conditions at the car plant.

Sensational developments in the session of the government peonage probers were developed tonight when several witnesses declared on affidavit that they had been "treated worse than dogs," had been served "rotten food," the car company had "failed to keep financial promises," and car company bosses had "threatened to blow heads off with revolvers."

Charges that gambling was allowed to go on unchecked in the car company commissary were also made.

KILLED IN AUTO RACE.

Mechanic Met Death in Collision at Brighton Beach.

(By Wire to The Morning Star.)

Brighton Beach, Motorodome, New York, Aug. 27.—Louis Cole, mechanic of the Stearns' car in the 24-hour automobile race, was killed here tonight and the driver, Laurent Gross, was fatally injured in a collision with the Acme Car shortly before midnight. Patcheke and Maynard, the crew of the Acme, were only slightly injured. Both cars were wrecked. Gross and Cole were thrown from their car in the collision. Cole was almost instantly killed; Gross' spine was broken and he cannot recover.

The race was stopped, but resumed in ten minutes.

Less than 15 minutes later, to avoid another collision at the same point, Vantine, driving the other Acme entry, escaped death by steering his car straight through the heavy infield fence. Both e and his mechanic escaped injury and his car was damaged only slightly, losing a front wheel. The machine was dragged back to its quarters and started aagin in a few minutes with a new wheel.

A short time before the accident in which Cole was killed Driver Hughes, o fthe Allan-Kingston, was seriously burned when his clothes caught fire from a blaze whic started near his gasoline tank. The blaze was put out by one of the other drivers who stopped his car and rolled Hughes in the sand, while the machnicians smothered te flames in the car.

NORTH CAROLINIAN NAMED.

Insurance Commissioner Young Is on the National Commitee.

(By Wire to the Morning Star.)

Colorado Springs, Col., Aug. 27.—Mobile was selected today by the National Insurance Commissioners as the meeting place in 1910. Joseph Button, Virginia; J. R. Young, North Carolina, and F. N. Julian, Alabama, were elected members of the executive committee.

Second only in importance to the resolution against "wild cat" insurance schemes, adopted yesterday, is the recommendation of the executive committee standardizing forms for accident and health insurance companies. The convention decided to submit uniform laws to the Legislature of all the States, providing for standardizing these forms.

ARRESTED AT FAYETTEVILLE.

Itinerant Doctor in Jail Charged With Horse etealing.

(Special Star Telegram.)

Fayetteville, N. C., Aug. 27.—Dr. Stabler, alias Murphy, was arrested in Fayetteville charged with stealing a horse and buggy from one Maddox in Lynchburg, Va. Maddox was here yesterday seeking Stabler and gave Chief of Police Monaghan a description of the thief. Stabler rode into town this morning. Monaghan recognized and arrested him. He had driven all the way from Lynchburg, stopping last night 11 miles west of Fayetteville. He acknowledged, but would make no statement. He is in prison awaiting instructions from Lynchburg.

WANTED: 50 MEN AND WOMEN.

J. Hicks Bunting Drug Co., the enterprising druggists, are advertising today for fifty men and women to take advantage of the special half price offer they are making on Dr. Howard's celebrated specific for the cure of constipation and dyspepsia, and get a fifty cent package at half-price, 25 cents.

So positive are they of the remarkable power of this specific to cure these diseases, as well as sick headaches and liver troubles, that they agree to refund the money to any customer whom this medicine does not quickly relieve and cure.

With Dr. Howard's specific at hand, you can eat what you want and have no fear of ill consequences. It strengthens the stomach, gives perfect digestion, regulates the bowels, creates an appetite, and makes life worth the living.

This is an unusual opportunity to obtain 60 doses of the best medicine ever made for half its regular price, with the personal guarantee of a well known business firm to refund the money if it does not give satisfaction.

If you cannot call at J. Hicks Bunting Drug Co's. store today, send them 25 cents by mail and they will send you a package promptly, charges paid.

FARMAN WINS IN BI-PLANE

(Continued From First Page.)

sandier and the sixth to M. Sommer.

Although Farman's brilliant record as an aeroplanist should have warned the sharps that he was a dangerous competitor, his victory was a complete surprise. He had been preparing his machine secretly and had not appeared upon the field until today except for a few practice flights and had been almost forgotten.

Indeed, after he started about 4:30 P. M., keeping close to the ground while Latham and others were soaring in spectacular fashion high in the air, Farman attracted no attention until he had flown eighty kilomtres. Then suddenly the watchers woke up and began to make inquiries, only to discover that he had gone out carryinig petrol enough for a five hour flight and equipped with a self-coaling revolving motor built by the Gnome Company after his own design.

BRADSTREET'S REVIEW.

Continued Improvement in Trade and Industrial Enterprises.

(By Wire to the Morning Star.)

New York, Aug. 27.—Bradstreet's tomorrow will say:

Trade and industrial tendencies are still in the direction of improvement. Impetus is given these movements by the beginning of the cotton harvest at the South, by the completion of the Spring wheat harvest in the Northwest and on the Pacific coast, and by the gathering in of other products of agricultural interests in various sections of the country.

In commercial lines, jobbing trade still has the center of the stage, and reports are practically unanimous that buyers' excursions are stimulating Fall demand as the close of the vacation period approaches.

Retail trade still largely deals with the disposal of Summer goods mainly at concessions. In wholesale and jobbing lines of dry goods there is still in evidence cautious buying.

Business failures in the United States for the week ending with August 26 were 201 against 183 last week, 236 in the like week of 1908.

Chivalry.

Observing a man in the act of beating his wife on the lawn with all the abandon he might have used on a dusty rug, a passerby interfered. Immediately the rescued wife retreated into the happy home, whence she emerged bearing a pan of greasy water, the contents of which she dashed over the passerby.

"If there is anything that makes me tired," remarked the passerby as he went away, "it is the idle patter of the thoughtless concerning chivalry."—Philadelphia Ledger.

She Was Too Quick.

There were three at the little table in the cafe, a lady and two men, according to the Cleveland Plain Dealer.

Suddenly the electric lights went out, and the lady quickly and noiselessly drew back.

An instant later there was the smack of a compound kiss. As the electric lights went up each man was seen to be smiling complaisantly.

"I thought I heard a kiss," said the lady, "but nobody kissed me."

Then the men suddenly glared at each other and flushed and looked painfully sheepish.

Boston Tea Party.

"Boston tea party" is the name facetiously given to a group of citizens at Boston who on Dec. 16, 1773, in disguise of Indians boarded three ships that had recently entered the harbor and hurriedly threw overboard several hundred chests of tea with which these vessels were laden. This was done as a protest against the English effort to tax the American colonies without granting them representation in parliament. As a consequence of this act the British closed the port of Boston by way of retaliation.

Dr. Hale and Pie.

In an article on Edward Everett Hale's part in the establishment of the Lend a Hand society's first headquarters a writer in the Boston Transcript says:

From the first Dr. Hale was deeply interested in this plan and supported it. The bill of fare was presented for his inspection. He looked it over and said, "Where's the pie?" Mrs. Whitman remarked that the committee thought it might be better to have some other form of dessert. But "the chief" said: "Oh, give them pie! Life isn't worth living without pie!"

Little Fred had been reading about Darwin, and he said, "Grandpa, I want to ask you something."

"Well, what is it, Fred?" queried the old gentleman.

"When you were a monkey," said the small student, "did you have a tail?"—Chicago News.

'Twas A Glorious Victory.

There's rejoicing in Fedora, Tenn. A man's life has been saved, and now Dr. King's New Discovery is the talk of the town for curing C. V. Pepper of deadly lung hemorrhages. "I could not work nor get about," he writes, "and the doctors did me no good, but, after using Dr. King's New Discovery three weeks, I feel like a new man, and can do good work again." For weak, sore or diseased lungs, Coughs and Colds, Hemorrhages, Hay Fever, LaGrippe, Asthma or any Bronchial affection it stands unrivaled. Price 50c. and $1.00. Trial Bottle free. Sold and guaranteed by R. R. Bellamy.

The Tertiary Epoch.

The so called mesozoic epoch was brought to a close by the cataclysm due to the contraction and consequent crumbling of the earth's crust which upheaved the Rocky mountains and Andes on this hemisphere and the Alps, Pyrenees, Balkans and Himalayas on the other side of the world. Incidentally to this tremendous alteration in the face of the earth all the giant reptiles were wiped out of existence. This event opened what is called today the tertiary epoch. It is in the tertiary epoch that we live now. At the beginning of this epoch the only reptiles which survived were the snakes, lizards, turtles and crocodiles, all of them resembling closely those of their kind which exists today.
